

Instant recall facts Year 5 – Autumn 2

Recap of all times tables – Multiplication and division facts

Hopefully you now know all of your times tables – complete this grid and see how many you can remember.

Write down the ones you are least sure of and practise these regularly until you know them. It would be useful if you know them in any order too.

x	1	2	3	4	5	6	7	8	9	10	11	12
1												
2												
3												
4												
5												
6												
7												
8												
9												
10												
11												
12												

Key vocabulary

Multiply
Times
Lots of
Groups of

Divided by
Shared by
Grouped into
Shared into ___ groups

Eg: 3 lots of 3 is equal to 9
36 shared into 3 groups is 12
18 divided by 3 is equal to 6

Top tips

- It's really important that you know all of your times tables as then you will be able to apply them to other areas of maths
- You should be able to answer these questions in any order and phrased in any of the given ways
- Practise little and often. You could practise whilst travelling to school. You could choose one fact and have this as your fact of the day, which you answer when asked throughout the day.
- **Use practical resources:** eg: There are 4 of us and we each need 8 grapes with our lunch, how many grapes do we need?
- **Songs and chants:** use songs to act as memory hooks
- **Facts for free:** Because you know that $7 \times 5 = 35$, you also know $5 \times 7 = 35$ and because you know that $35 \div 5 = 7$, you also know that $35 \div 7 = 5$
- **Different representations:** 3 fives = $3 \times 5 = 3$ lots of 5 = 3 times 5

Year 5 – Autumn 2**

Challenge:

How can you use the times table facts that you know to help you solve the following?

18×16	13×11	19×17
14×11	17×12	14×14
16×12	15×13	12×11
21×15	21×12	20×13
